

HAGLEY CATHOLIC HIGH SCHOOL

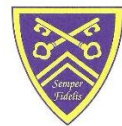

Remote Desktop

On the Hagley website 'www.hagleyrc.worcs.sch.uk', under the 'Quick Links' dropdown menu there is a heading marked 'Remote Access'.

Click on this.

When you have loaded the remote access page it will have two headings: Individual App Access, and Virtual PC Access

HAGLEY CATHOLIC HIGH SCHOOL

Virtual PC Access – For Full remote desktop connections

On the Remote Access Page on the Website, Click the Link under the Heading 'Virtual PC Access' #

Virtual PC Access

If you want to connect to the school network via remote access,

For Windows PC's Click the link below

[Windows Remote Access](#)

For Mac PC's, follow the Link below to download the Remote Access App.

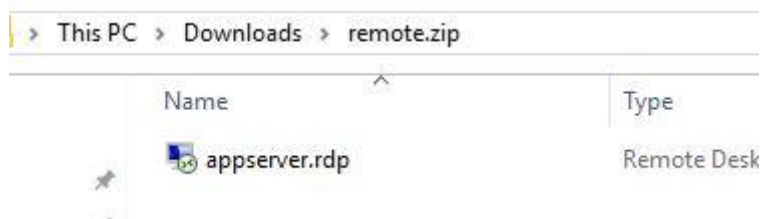

[Mac Appstore Link](#)

You will be asked to enter your network username and password credentials. Please

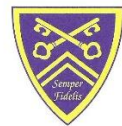

This will download a file called 'remote.zip'

When it is downloaded, open the file.

Inside the zip folder there will only be one file, seen below.

Click on this file and then in the ensuing pop up window, click connect.

HAGLEY CATHOLIC HIGH SCHOOL

You will then be prompted for your hagley login, which will be the same as you use to login to any PC around the School. Your username must be preceded by 'hagley\'.
Backslash is located to the left of the 'Z' key on the keyboard.

Backslash is located to the left of the 'Z' key on the keyboard.

When you have typed in your login details, you may get a pop-up mentioning certificate errors. This is not an issue and you can just press yes at the bottom of the window.

A remote session will then begin Fullscreen.

You can tell a remote desktop from a regular one by the blue bar in the top-middle of the screen.
